ROGER SMITH LECTURE

Fort Worth, TX - The November meeting of the Fort Worth Magicians Club featured a lecture by Roger Smith, an expert at the card table. 24 members were in attendance. The meeting started off with the introduction of new and returning members. Next was an announcement of an upcoming lecture by Aldo Colombini. Then it was on to the feature of the evening, a lecture presented by Roger Smith. Roger started off with a baffling ambitious card routine with some very original moves. He continued with a clever double card revelation using a monocle. By breathing on the glass a card was revealed and then magically a second card was revealed. Next was a mentalism presentation of a number prediction. One of the highlights of the lecture was Roger's cups and balls routine. Roger's presentation is both amusing and exciting with a surprise large load ball ending. Very smooth and very convincing. At this point we took a break and the members were treated some sweet cake brought by our very own FLASHPAPER EDITOR, Fran Hatzenbuhler. Delicious indeed! Then it was back to the magic! Roger started the second half of the lecture with a very clever coin to the pocket routine with moves that most of us have never seen. The feature of the lecture was the performance and explanation of Maxi-Twist which was created by Roger himself. It was great to see this effect performed by the originator, as there have been many variations, but none better than the original. Roger closed with "the trick that can't be explained" using the free cut method. This is a three-phase card prediction that gets more and more baffling as it goes. Many thanks to Roger Smith for sharing his amazing magic with us!

SAM Assembly 138 meets with the Fort Worth Magicians Club on the first Thursday of each month at 7:00 P.M. Contact Randy Keck at 817-441-8091 for location information.
